Title:

Comments: As a born and raised Montanan, it makes me so sad to see that large corporations can come into our state and turn this beautiful land that can be enjoyed by everyone into a rich persons playground. This place holds a lot of meaning to me and my family. This expansion would destroy the integrity of the area. There would also be more conflict between humans and wildlife and increased traffic to a remote area that would struggle to support the change.

Please don't allow this to happen. Please protect Montana and its lands!
