Comments: I am not in agreement of expanding the facilities which in turn increase the foot traffic in and around Holland lake. This area has been a wonderful, pristine area for my family and I. Before I had a family I hiked and enjoyed the area for the last 17 years. Building more cabins will destroy the habitat, increase the foot traffic and ruin this special area.

I am all for upgrading the current facilities if that is what is decided. But, please do not extend it to the extreme of this proposal.
