Comments: I am a born and raised Montanan and A staunch Enviromentalist. I understand much of Montanas economy comes from tourism. However, we already had our fuel tax taken despite the fact we voted for it, and the revenue generated by marijuana repurposed, even though we voted on it. If the forest service allows this it will not be in the best interest of the people of Montana. The money is not the issue, as land is the biggest resource we have, it is about preserving some of the natural wonders that bring tourists and rich alike. If it is one big parking lot than we are no longer Montana. Please DO NOT allow this pristine location to be destroyed by development. We can find, and indeed have, the money elsewhere.
