Comments: Holland Lake is one of our remaining treasures in Montana. It's very existence as such is worth following the law. NEPA requires more than what you are asking of this out of state group of monied people. Holland Lake is worthy of an EA or EAS. We must recognize the features that must be preserved for generations to come. Assess the environmental impact of these proposed changes. Follow the law! Don't just let these people get their way without any public input, and without following long established environmental law.
