Comments: As an 86-yr-old lady, I wish to comment regarding Holland Lake. Please keep the lake pristine and beautiful for future generations. My kids and grandkids still enjoy the water, fish, ducks, and loons. Camping there has been a part of our history. My husband is gone now, but he and I spent many peaceful vacations there with each other, and many, many weeks there with our kids and grandkids. Bringing too many vehicles through that camp road would tear up the road, stirring up the dust in the area. Too many people on the small trails would necessitate unnecessarily widening, and tearing up vegetation to do so. Please do not disturb the area of the falls itself. The area is beautiful and fragile. We long-time Montana folk appreciate and love this lake, just as it is. Please don't let it be destroyed.
