Comments: I was excited to hear about the much needed improvements that were going to come down to the region. I have been a guest at Holland Lake several times, and although I can see that they are doing the best to maintain the place's operations, the infrastructure is quite limited. As a tourist I can't help to think how much the area could be improved and revisited with additional funding. I'm not sure why some people are hoping to keep a business owner from making doing what is best for their family and their business.
