Comments: We do not want holland lake to be exploited for financial gain! Montanans value our lakes and historic buildings and we do not want the redevelopment of holland lake to happen. I have been going to holland lake as a child as one of the best things about it is that it wasn't crowded, minimal buildings and you could still feel as if you were in the mountains of Montana. This lake should not become a tourist attraction to host rich out of staters. Keep Montana sacred and beautiful.
