Comments: Holland Lake has been a haven for locals and visitors for years. The plan presented by this company is non conforming to what should be allowed. The environmental impact of a project this size would be huge. From the number of trees that would be cut down, to animal habitats, to traffic, and trash would turn this serene lake into something Montana is not known for.

I am completely against this project and think the area needs to be kept as pristine as possible so that future generations can continue to enjoy it as much as we have.
