First name: Steve

Last name: Barker

Organization:

Title:

Comments: We don't need more traffic on road to Holland Lake and trailheads which this would cause. The overflow from the campground comes over to the horse campground already. I think it will take away from the beauty and quietness that it is currently. Also it is a historical lodge now that would totally be changed by this expansion. Not to mention the cutting down of trees that this would do. This would totally change the current environment of this place.
