Comments: Please consider just improving what is already at the Holland Lake Lodge, but not changing anything else about it.

Please consider instead of enlarging different lodges perhaps on lakes that already have more development and have space for expansion such as Flathead Lake.

Please leave Holland Lake as wild as it is. I am begging you. The animals and residents are being hurt by these constant developments. We residents have no problem with tourism, but our infrastructure and way of life is in danger.

There are many examples of how this kind of development will just open more doors for damage to our state and only benefit investors and not residents. Just because a company can buy and change property doesn't mean it should. It would be better to just renovate what is there, add a paddle board rental, rent it out for weddings and events, and rent out gear for hiking and convenience.

Please keep this area a special jewel and not a place just for the rich to play, exploit, and run down. Please, there are other places where lodges can be built where it is more appropriate. Many lodges around Flathead or other lakes can be purchased and improved and will attract people. Please sell the lodge to a family oriented business at a fair price, and go renovate other places that won't need to be altered. I'd do the same for you if it were your precious home in danger.
