Comments: Dear U.S. Forest Service: I am writing to oppose the Forest Service leasing additional public public land at Holland Lake to a private party. There are places where private development simply distracts from the inherent beauty and character of a place. Holland Lake is an unspoiled jewel that has been available to average income citizens. A new development is likely to charge high rates to visit or stay there. They may even put it behind a gate - a sure sign that the general public is not welcome or invited. I have no issues with a footprint no larger than that currently present.
