Comments: I can't even begin to describe the pit in my stomach after reading the proposal for the Holland Lake Lodge. As a fourth generation Montanan who grew up poor but with unlimited access to the outdoors, I can't believe another beautiful Montana location is going to be gobbled up by the wealthy. It's already difficult enough for those of us that live locally to get access to campgrounds that used to be in crowded and to think that even more access will be denied if this ridiculous proposal goes through. I would also think that the impact on the local wildlife population should be of concern as well. I oppose the redevelopment of the Holland lake lodge and use of adjacent public lands to support another playground for the rich.
