Title:

Comments: It's one thing when our economy is being helped by the tourism, but when historical buildings are being torn down, and an out of state corporation is profiting from this, it is simply unacceptable. We need to protect the wild and historic spaces in this beautiful state to maintain a space that can be sustainably enjoyed for future Montanans, and visitors coming for more than a fancy mountain lodge stay. They can get that in Wyoming, or hell, even Big Sky.
