Comments: I oppose the expansion of the Holland Lake Lodge area. The expansion is too large for the area and the impact on the lake from the sewers, and the wells that would need to be drilled to accommodate such a large facility would harm the aquifers. Eventually the lake will be contaminated from the drain fields.

The increased traffic would also be a problem. Increased boat rentals will create numbers that would also impact the lake.

The residents of the Swan community find it harder each year to use any of the recreational areas due to the high volume of summer visitors. Van Lake is a perfect example.

I have seen many changes since I took my first "very cold" swim in Holland in the late 1950's. The fact that we have such beautiful country and everyone wants to enjoy it, can also have a negative effect with high numbers of people visiting a small area.
