Title:

Comments: I have lived in Montana for 25 years and I have explored many of its beautiful lakes and mountains. I am against any kind of exploitation in regards to building structures that would not be accessible to all Montanans and that would take away from the beauty of our natural landscape. I do not agree with the Holland Lake Lodge proposal and am against any building of its kind in this area. Forest service land is for all people to be able to enjoy and access not exploited and profited on by the wealthy. Please say no to this development project.
