Title:

Comments: This should be a hard no. I have camped and loved Holland Lake for over 50 years. My great grandparents, grandparents, and parents all camped and used the lake and surrounding area. I have now shared the beauty and magic of the lake with my children and it should remain untouched for future generations. The beauty of Montana needs to be left alone and not harvested for only a very privileged few. Montana is my heart ???. Please do not abuse it.
