Comments: Although I understand the value of growth and tourist dollars in our state, I am highly opposed to proposals such as the one at Holland Lake. These larger corporations and wealthy individuals are making vacationing in our own state unaffordable so that our children and grandchildren cannot enjoy the simple pleasures of the great Montana outdoors. The history and the simplicity of Holland Lake is one of our fading gems that we enjoy with camping and the use of our public lands. As a resident and native Montanan, I do not support the plans for tear down and growth in Shillong Lake.
