Comments: To take a beautiful natural lake and turn it into a mega destination is a tragedy! Our family has been going to Holland for years to enjoy its natural beauty. To add huge commercial buildings and obstructions would ruin it for everyone. Everyone who goes there enjoys the rustic feel. We love that the only building you can see while on the lake is the old lodge. It is a very special place to our family and has been for generations. Please don't ruin this MT beauty.
