Comments: This has to do with the remodel and new construction of Holland Lake, Montana.

I am opposing the plans of POWDR to move forward with their plans to update and expand the existing structures of Holland Lake Lodge.

As a Montanan, I am offended that the Forest Service would even consider these plans.

We need to keep Montana from becoming California and Utah.

Please do not approve or move forward with your plans to change Holland Lake and it's pristine, natural beauty.
