First name: Doug

Last name: Solwick

Organization:

Title:

Comments: I oppose the project and the way the Forest Service has handled the vetting process. POWDR is one of the largest ski resort operators in North America and their proposal and positioning is another example of the systematic corporate land grab. The gentrification of everything for a buck is taking place across Montana, everyone should be able to enjoy Holland Lake....

No on this project, there is already a lodge and accommodations, enjoy that throwback to simpler time....
