Title:

Comments: Please do not prostitute our land. These endeavors only prove to push people out through tax hikes and over crowding. Many people I'm friends with come to visit from other places and say "why doesn't someone come to develop all this empty space?? How is it still empty?" And I pray it's because we make sound decisions about the expansion and use of our beautiful protected spaces. Let's not make the mistake other pristine places have made, like Big Sky and Flathead where good local people are priced out of their family land through taxes and unmanageable fees. Keep Montana beautiful and don't sell our lakes and mountains to be made into big developers amusement parks!!!
