Title:

Comments: Holland Lake is a beautiful and unique area to visit and explore. Current owners have been dedicated to maintaining and care of the area. They are passionate about sustaining the lodge for future generations. They have made improvements, but also understand for the property and surrounding area to move forward and be sustainable, it requires a larger organization with the means to update the current infrastructure and allow Holland Lake to be enjoyed and explored by future generations. After reading and seeing the proposal for the upgrades, I am happy that we will be able to continue to enjoy as will future generations.
