Comments: Holland Lake is one of my family's favorite Montana getaways, please don't change a thing! Owe love it because it still feels like an "untouched" natural place. We have had family reunions there, and often go kayaking across the lake, enjoying the peace and quiet. The hiking trail is also one of our favorite things to do. My kids loved the waterfall and the little chipmunks at the top, looking for fallen crumbs. We have lived in north central Montana for 25 years, and Holland lake is frequented by myself and my extended family. PLEASE don't allow a big building development to ruin the natural beauty of this place!
