Comments: Everything about this so called Holland Lake Expansion Project is iniquitous. By no means is this an improvement to the US Forrest, ironic to even state that. It will forever destroy the heart of Montana, our natural beauty! Holland Lake should be a State Park for all Montanans to enjoy, not some Corporate take over for profit from outside Montana! Holland Lake has incredible historic value to anyone who actually knows it's origin. Stop investors from taking over and destroying iconic Montana areas for profit. Holland Lake belongs to Montana! Keep it that way, preserved for our future generations! Do not allow this company to skirt around their obligations of respecting Montana values!

Alan Asa-Dorian
