Title:

Comments: Please do not allow our state to continue to turn into a real world Yellowstone. My family has been going to this lake and swimming, fishing and enjoying picnics since I was a child. Our family continues to take our loved ones and children there for the same experiences we had growing up. We have already seen Whitefish, Bozeman and Missoula change drastically and they all now have the city life feel and true Montanans can't afford the prices. Please we beg you not to continue to let these corporations ruin our state for profit.
