Comments: I am writing in opposition of the project for the Holland Lake area.

Montana is not interested in people moving in to take over our Montana lakes and tearing down historic buildings by large corporations. People move to Montana because it IS Montana with it's God-given beauty in it's Mountains, Forests, and Lakes for everyone to enjoy. I am a native Montana. I am appalled at all the changes by out-of-staters moving in and changing it to suit them. If you love Montana.....keep it Montana.

U.S. Forest Service.....we rely on you to protect our pristine lands, forests, lakes and mountains. Please do not let this happen.

Let's be more interested in keeping it clean instead of letting big corporations come in to change what we have.
