Comments: I am objecting to the proposal to enhance Holland Lake and the all the property. My great grandfather was Ben Holland. It's nice to have the lake named Holland Lake. There are so many issues and environmental problems that will happen if this project happens. Montana does not need out of state companies coming in to the state and purchasing our land. We need to preserve our state for our children. I will not be able to afford going to Holland Lake if POWDR turns the area into a resort. I visit Holland Lake as often as I can and enjoy the peace and solitude of the area. It will be devastating to ruin the beautiful area with a resort just because a company with money can come in and buy the property. We don't want to ruin what we have. It will never be the same and can never be returned to the same condition. We should preserve the land and take care of it.
