Comments: Holland Lake is a beautiful area of Montana and this expansion project is a threat to the wildlife and people living there. Over the last couple years, Montana has been inundated with out of staters seeking the "adventure lifestyle" and it has been a burden on the countryside and the people who have called this place home for generations. People who come here to vacation/live that are truly seeking the beauty Montana has to offer are respectful to the land and wildlife, welcoming to the slower pace, and enjoy what we have to offer. Montana doesn't need a huge resort to draw thousands more visitors every year.

The larger scale (466% larger!!!) will bring far more noise, disrupting the wildlife, it will lead to heavy amounts of traffic on the highways, more water usage, more sewage to deal with, and massive amounts of damage to the countryside and watershed during construction and operation. Montana absolutely DOES NOT need more wealthy, out of state developers tearing up what draws people to Montana just to make money. Bigger resorts ? more nature loving visitors. SAVE HOLLAND LAKE!
