Title:

Comments: As a recreator at Holland Lake, I would like to request a scaled down version of this plan. The Holland Lake area is pristine and still relatively remote. It would be in the best interest of the recreators, visitors, and locals to keep the plans within the existing footprint of the lodge.

Having more updated facilities would be welcome, along with cabins, campground, and lake access.

Please reconsider this plan and look at development that would fit within the existing layout of what us currently developed.
