Comments: Greetings.

I am writing to voice my opinions regarding this 'Holland Lake Project.' I am very much so AGAINST this proposed project. I am a resident to the Flathead Valley and have been to Holland Lake, Holland Falls and Holland Peak multiple times.

It seems very clear that the proposed expansion is nothing more than yet another way to attract the uber wealthy from out of state. With all due respect, out of towners already dominate Glacier National Park, Yellowstone and shortly they will do the same to Crazy Peak (thanks Yellowstone Club). What is special about Montana is the public land--the amount of it and the quality of it--available for all Montanans no matter what tax bracket we belong to. It is my most sincere hope that that does not change.
