Comments: There are fewer and fewer natural unspoiled, undeveloped forests in America that I feel we need to preserve those that remain. We need to keep as much of America that is wild, still wild so I oppose the proposed development at Holland Lake Lodge and it's surrounding area. I ask the US government represented by the US Forest Service deny the petition to tear down trees, kill wildlife in order to develop multiple buildings, parking lots etc to create yet another resort for the wealthy.
