Title:

Comments: As a longtime resident that was born and grew up in MT. This property borders wilderness wether or not it's official wilderness, I'm not sure, but it shouldn't be allowed to be developed and taken away from the common public like the area around big sky Big mountain and other ski areas. Montanans cannot afford anymore exclusive properties to take away their own experiences. The impact on habitat alone should take this proposal off the table. Please do not overdevelop the Seeley Swan like the other valleys in MT.
