Title:

Comments: As a tax payer in Montana and public land endorser , I heartily disagree with this decision. I understand that income is needed, but we do not want Tahoe lake happening here in Montana.

Out of state billionaires cutting off public access to a beautiful piece of Montana, that belongs to the people of have built up the cities and the surrounding communities with dedication to the land and its people.

NO MORE OUT OF STATE PROJECTS! This belongs to the people on Montana. Out of staters are welcome to come visit and pack in and pack out their tents and camping gear like the rest of us, they do not need a private lodge or somewhere for their Audis to park. #keepmontanathelastbestplace
