Comments: Holland Lake should be left as it is. The current state of Holland Lake is a perfect analogy as to what makes Montana, Montana. Do not destroy yet another corner of our beautiful state because some out of state group wants to make a buck off the beauty and tranquility that is Montana. The current plans will detract from the allure of Holland Lake and the surrounding area. As an outdoorsman, building such a complex will forever turn me away from all that Holland Lake has/had to offer, on the simple fact that this complex will assuredly be a dark stain on the lakes coast line and usher in a slew of headaches associated with it that totally defeats the purpose of why I would ever want to enjoy Holland Lake in the first place!
