Comments: I am oppose to this project.

Montana is a place to come and enjoy the great outdoors.

From hiking to camping, fishing, hunting, and exploring the great outdoors Montana is the place to be.

But when our little slices of heaven get cut up, even little by little, soon there will be none left.

We don't need another housing area, we don't need a ski resort, we don't need a mall. We need the outdoors.

We need the land the animals and people to protect it.

No to this project and anymore in Montana.
