Title:

Comments: Good afternoon,

I was born in the Flathead valley and have seen many changes here and across Montana. I've always loved the Swan, as the Flathead becomes more crowded my family and I have sought out other areas where we could recreate and enjoy the solace and beauty that Montana provides. One of the areas we found ourselves going to increasingly is Holland Lake. We love the peaceful and remote character of the lake and surrounding areas. While we understand the buildings need maintenance and businesses need to be profitable, we oppose this development as proposed. An environmental impact study needs to be done and a plan submitted that maintains open spaces and the character of the lake and land around it while providing accessibility and a pleasant experience that is within the reach of ordinary residents and visitors. I'm not against progress but we must recognize the value of having places to go that don't have every amenity and respect and nurture the environment that draws us to these places for respite and enjoyment. Please listen to those of us that have lived here for generations and worked to preserve the remote beauty of our amazing state.

Very Respectfully,

Colby Lenz
