First name: Jared

Last name: McNutt

Organization:

Title:

Comments: Please do not degrade this area with development. It's nearly perfect as-is. Holland Lake's trailhead is used to access the neighboring Bob Marshall Wilderness complex by hikers, hunters, and wilderness enthusiasts from around the globe. They do NOT come to see additional development. They come for the wilderness experience. This wilderness is one of the last great tracts of land left in the lower 48, and development would spoil it's beauty.
