Comments: I am absolutely opposed to the proposed development on Forest Service land at Holland Lake . In addition I am appalled that this development would even be considered by the Forest Service who, being vested as managers, are not owners of this public land. This development is incompatible with the unspoiled natural environment, historic character and proximity to a designated Wilderness Area.

I believe a full environmental assessment must be completed in order to ensure no damage will be done to the lake, the wildlife, or the Forest. This is how the Forest Service is supposed to operate. I am highly suspicious as to why this step is not automatically set in motion.
