Comments: We are leaving very little for our future generations. We are developing every square inch of this wonderful place we call home. We definitely do not need another development for the wealthy. We need to preserve as much land as we can before it is all gone. All we have left is that which has not yet been sold to the highest bidder. The question will be asked in the future "Why didn't they do something when they had the chance ". The best option for Holland Lake would be to remove the buildings and restore the land to limited camping. Restoration is preferable to development. Preservation is a lot less expensive than restoration. Do not continue the mistakes of the past. We are loving our land to death. We need no further development or additional paved roads leading to the Last Best Place!!!
