Comments: I have treasured visiting Holland Lake every other year for 30 years and love how it has beautifully survived the passage of time without being over run by big business and tourism "Progress" that much of our state has suffered. I believe it is a travesty to approve a major expansion of the lodge IN SUCH A PRISTINE AREA, close to wilderness at all and especially without a careful EIS. The road, trails, the wildlife, the lake are all so fragile and preciously rare because it hasn't been flooded by tourists. Construction, especially the septic system will be destructive to the amazing environment and to the locals and campers that enjoy the quiet and peace. Why ruin a Montana treasure for out of state folks?

Thank you for considering holding expansion on this Beautiful Place, truly one of the last great!!!!
