Comments: I live in Oregon, but was born and raised in Northwest Montana. Montana will always be home to me. I'm very concerned that the USFS has forgotten that these lands belong to the American people. How can you destroy what makes Holland Lake and lodge special into a playground for the rich and famous. I for one can't let this resort be rushed through without saying my piece. I worked for the forest service in high school. My father retired from the forest service. In my experiences there were extensive studies and environmental impact reports done. Who thinks not doing these aren't necessary? I smell something rotten! I beg you to reconsider this project before the damage is done!
