Title:

Comments: I strongly oppose this project. Not only has it been "hidden" from the public, and has a shorter comment period than usual, but it will take away from what is "Montana". If you continue down this road then you will just become another Park City/Whitefish/Big Sky/ Laguna Beach/Jackson. Protect what you have, your Wilderness. If people don't like what is currently offered in Montana, then maybe you shouldn't visit and go to Park City.
