Comments: I am 100% opposed to the proposed development plan of the Holland Lake Resort. The proposed plan is completely out of step and scale with the intent of the original development, the valley, the road access to the location, the surrounding beauty, as well as the lifestyle of the entire area. This proposal does not "preserve the spirit and integrity of what is here. . ." as stated by the current owner; rather it is at complete odds with the entire environment. Other options to provide the "TLC" the owner references that the resort needs to continue to function must be considered. This entire area with its access to the Bob Marshall Wilderness Area, delicate loon nesting areas and pristine waters must be preserved and managed and cared for with careful consideration of the future. The proposed development plan fits in with Aspen, Telluride, Jackson, Bend - but not here in this quiet, undeveloped valley.
