Comments: While I understand progress marches on, there has to be some happy medium. Holland Lake Lodge and the surrounding forest is, actually, a sacred area. We can not allow the destruction of our way of life. Yes we have lots of tourists but if we allow out of state corporations to come in and change the landscape, we will be like everywhere else. Money is not everything. Why do we live here? Because of the "Montana" way. Please let's keep Holland Lake Lodge to remain as is. It would help us to keep Montana as the last best place
