Comments: Holland lake has been a family gathering spot for most of my life. I fear that the develop of the Holland Lake Lodge will create an even more over populated recreation place on its shores and trail system. Therefore the development of the lodge could contribute to future detrimental impact to the natural and social environment of Holland Lake. I deeply value the quiet and calm environment that Holland lake provides, and it truly is a hidden gem in Montana. Please do not develop Holland lake lodge, it deserves to stay as it is for the sake of the citizens of Montana that cherish it.
