Title:

Comments: I was born and raised in the beautiful Big Sky Country and value any vacation time I can to go visit. I would protect this beautiful land as a place of peace and beauty. I am a Native American and implore you to not sell out it's beauty for money. It belongs to the people to be awed by in all it's grandness of nature. It is land that is to be protected from greed and selfish gain, so that every person young or old will have a place of beauty to come to, walk in, sit and just breath it in. Be thankful for the privilege you have been given, because it really is one. Thank you.
