Comments: I have lived in Montana for 46 years and what is taking place today a huge disappointment. Please do not allow these companies to come in and invade our state and destroy our precious outdoor activities. If this is allowed the lake will never be the same. These environments need to be saved for our children to enjoy!! large companies trying to profit and destroy our outdoors Should be shut down immediately. Please help save Montana and keep our outdoors a place for our children to grow up like we did. These freaking people moving here from out of state could care less about our outdoors and beautiful things we've enjoyed our whole lives. Do not let them destroy our state
