Comments: This project is wrong In so many ways. Taking the beauty out of The Holland Lake area to over crowd it with people that don't appreciate or understand the beauty of Montana is absurd. Not only will this project take away the reason why so many love it as it is, the resort will forever effect the environment, the wildlife and everyone who travel or live there.

If you want to do something big for Montana, donate some of that money to help with all the natural disasters, wildlife foundations and so on. Keep Montana exactly the way it is instead of an over crowded, over priced resort with a bunch of Buffalo petting unappreciative tourists.

Please leave Montana alone!!!
