Title:

Comments: I do not agree with this project. As a Montanan I see our residents being driven out of our parks as they are being taken over by large corporations using our states beauty for their own greed and profit. We own land near glacier park and the summers are so crowded already that people who live in our state can't just go for a drive to enjoy our state without making reservations. Please do not allow this expansion. Our state does not need this. See
