First name: Grant

Last name: Alban

Organization:

Title:

Comments: Please do not allow this expansion to take place. No one is asking for this...just a developer looking to make money off a pristine area that has benefitted locals and visitors for ages. Increased use, increased housing costs, increased disturbance will all come with this project - and for what...so a few developers can make more money. By allowing this to proceed the end result will be wealthy individuals buying up real estate in the area and driving up costs and forcing average Montanans out. Whats more, this will be real estate (see: big fancy second - or third or fourth homes) that are lived in for only a few weeks a year. It's time to start thinking big picture about our ecosystems and our planet in general. There is no upside to this.
